

Research cruises – my work

Violetta Drozdowska

Instytut Oceanologii Polskiej Akademii Nauk, w Sopocie

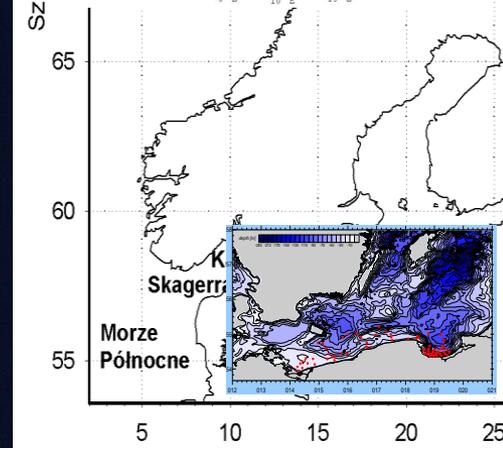

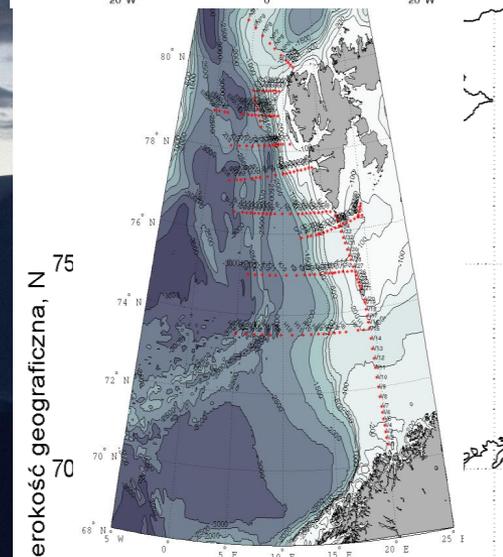

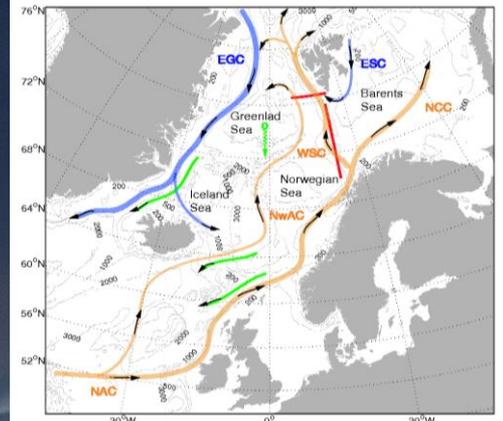

R/V Oceania
(1985)

**„Hej, me Bałtyckie Morze – wdzięczny ci jestem bardzo
boś ty mnie wychowało, szkołę mi dałeś twardą...”**

**Hey, my Baltic Sea - I am very grateful to you
for you brought me up, you gave me a hard school..**

Cruises... planning measurements...

Impressions and emotions ...

Longyearbyen / Svalbard (Spitsbergen)

Thorshavn, Faroe Islands

New places...

Polish Polar Station, IGF PAN, Hornsund

North Sea

However... people are the most important...

What you remember the most of all: are the people...

Meeting and working with people...

By working at sea... there is time and space - new challenges, breaking stereotypes, inspiration, relationships...

- sailing patent
- scuba diving patent
 - walruses
 - skiing
- ...stationary bike, guitar... ;)

I recommend working at sea, with seafarers/people of the sea !!!

Thank you ;)

Thank you ;)
